PROFESSIONAL EXPERIENCE

Senior Software Engineer | 2022 – present
EPAM Systems

- Designed and implemented scalable front-end solutions using React and TypeScript.
- Improved developer experience through shared utilities and reusable UI patterns.
- Optimize performance using code-splitting and lazy loading.
- Mentor junior developers and support onboarding.
- Conducted code reviews, mentored engineers, and participated in technical interviews.

Front-end web developer | 2019 – 2022
Codics Producers

- Built responsive, cross-browser web applications using React and JavaScript.
- Converted design prototypes into production-ready interfaces.
- Design and implement single-page applications with server-side rendering to improve performance and SEO.
- Develop animation-rich websites and optimize them for maximum smoothness and performance.
